

MEET OUR TEAM

The Power of Experience

We are an expert team of senior-level Leaders with over 70 years of experience spanning multi-disciplines in the Oil & Gas and Power Utilities Industries. Combined, we have over 30 years in leading and transforming Supply Chain organizations.

We are strategic and innovative thought leaders with experience in developing and transforming organizations. We have a proven track record of leading change, process improvement, and cost optimization. The successes in our approach include unlocking your corporate strategy, analyzing and responding to core data indicators, maximizing innovation, and driving sustainability performance, all while optimizing risk acceptance.

With Integrity and a drive for excellence, we are committed to maximizing our clients' value through a collaborative partnership approach that will help you transform for a more sustainable future.
